General feedback (5 points):
Overall it was good and easy to understand. I liked the final paragraph. Good ending leaves the reader interested in the possible applications this discovery could have in the scientific community.

It could be a bit longer. Maybe explain more about the topic. Go a bit more in depth. Could be helpful to the reader to include a picture or a description of the difference between the species of coral.

Needs in text citations of the quotes included.

Needs a rationale for why you chose the topic.

Overall assessment (excellent, good, needs improvement):

Good
