General feedback (5 points):

I think that you explained your topic about “Microbial Remediation as a Solution to Heavy Metal Pollution” very clearly and you explained all the difficult terms which made it a lot easier for me to understand. Some things I believe would help improve your article include adding a concluding sentence to each paragraph and linking it to the next to help transition it better, checking your grammatical errors and also making sure the in-text citations all have the same format. Other than this, everything else looks really good and I think you did really well.

Overall assessment (excellent, good, needs improvement):

Overall, I really liked the way how clear you cited all your information and also how clear it is that you understand this topic. To improve your article, I think that you should make sure all your paragraphs are indented the same and include the points I made in “General Feedback”. Generally, I think you did a great job and I also think your reasoning on choosing this topic is really interesting.
