[THIS CHART DOES NOT SHOW THE FUNCTION KEYS.]

Keys with dashed border and background color are deadkeys: for the diacritic in red, press key once, then vowel key.
 Keys with bold border (and C above code point) are for combining diacritics: these are to be typed after the applicable character.
The combining acute 0301 is redundantly placed on the 6-key because the 1-key may have a conflicting system shortcut.
