ISO Keyboard Pattern (non-US) **Windows GreekKeysU 2015 (Ger) UNSHIFTED**

[THIS CHART DOES NOT SHOW THE FUNCTION KEYS.]

Keys with dashed borders and background color are deadkeys: for the diacritic in red (upper character in the cell), press key once, then vowel key. To type the (lower) character in black on those keys, press the key once followed by spacebar.

Keys with bold border (and C above code point) are for combining diacritics: these are to be typed after the applicable character.

ISO Keyboard Pattern (non-US) **Windows GreekKeysU 2015 (Ger) ALT-GR** (= right ALT = ALT+CONTROL)

[THIS CHART DOES NOT SHOW THE FUNCTION KEYS.]

Keys with dashed border and background color are deadkeys: for the diacritic in red, press key once, then vowel key.
 Keys with bold border (and **C** above code point) are for combining diacritics: these are to be typed after the applicable character.
The combining acute 0301 is redundantly placed on the 6-key because the 1-key may have a conflicting system shortcut.
